ABSTRACT

This directory of schools which provide occupational training lists public and private schools which offer programs in preparation for a specific career. The types of listings include schools classified as vocational/technical, business/commercial, cosmetology/barber, flight, arts/design, hospital, and allied health; technical institutes, junior/community colleges; and four-year colleges and universities. Schools are listed alphabetically and are arranged in a format including address, telephone number, affiliation, type of school, enrollment figure, accreditation, eligibility, and types of programs offered. The appendixes include a list of schools offering occupational programs through correspondence, a program index, and a school and institution index. (CT)

FOREWORD

In 1970, the National Center for Education Statistics (NCES) began collecting data on noncollegiate postsecondary schools which provide occupational training. This effort has resulted in a biennial publication of directories, of which this edition is the fourth. The directory, along with NCES surveys of collegiate institutions, together provide a base of information on postsecondary educational institutions and schools.

These directories have been used by school and agency counselors to make referrals for career training, by labor market planners to develop more precise information on the supply of trained persons in various fields, and by State and regional education planners to obtain a more complete picture of postsecondary educational opportunities in their area.

Included in the directory are public and private noncollegiate schools which offer one or more occupational programs in preparation for a specific career. Data for these schools came from a special survey sponsored by NCES. Also included are 2- and 4-year colleges and universities which offer occupational programs leading to a certificate or degree at less than the baccalaureate level. Data for these institutions came from the Earned Degrees Conferred Form, Part C, 1976-77, of the Higher Education General Information Survey (HEGIS).

To provide an additional service to users, a separate publication, *Programs and Schools, 1978,* has been prepared which lists the names of schools which offer each of the programs cited in this Directory. The supplement contains the information summarized in the program index and expands it to show the names and addresses of each of the schools that offer programs in particular areas.

As is true with any directory, considerable effort is required to maintain a record of the current status of schools. NCES welcomes information regarding any omission or correction. Suggestions on the format or scope of the directory also would be appreciated.

A copy of the computer tape giving information on enrollments and programs in these schools can be obtained, at cost, through EDSTAT, NCES, 400 Maryland Avenue SW., Washington, D.C. 20202.

6. Enrollment in postsecondary schools with occupational programs, by control of school, and sex of student, and by State or other area: Aggregate United States, 1978 (universe data). xix

INTRODUCTION

This directory lists public and private schools offering postsecondary occupational education. It is intended to meet the needs of manpower and educational planners at the Federal, State, and local levels and others who require precise information on the current and potential supply of skilled workers. This directory should help, for example, to identify the types of programs offered at the local level in order to determine whether such programs should be expanded to meet projected demand for the occupation or be curtailed because demand is not anticipated. In vocational guidance, counselors may more easily identify those schools offering training for particular occupations in which students are interested. Also, the directory constitutes a basis for samples of schools for research surveys.

CONCEPTS AND DEFINITIONS

For the purpose of this directory, *occupational education* is defined as educational instruction designed to: (1) prepare individuals for gainful employment in recognized occupations and/or new and emerging occupations; (2) assist individuals in making informed and meaningful occupational choices; and (3) upgrade or update the skills of individuals already in an occupational field.

An *occupational education program* is a planned sequence of courses leading to a specific occupational objective.

Only those public and private schools and institutions which offer specified instructional programs at the postsecondary level are included in the directory.[1] The types of listings include schools classified as vocational/technical, business/commercial, cosmetology/barber, flight, arts/design, hospital, and allied health; technical institutes; junior/community colleges; and 4-year colleges and universities. Excluded are museums, libraries, tutorial services, schools and community agencies which offer avocational training or hobby courses, self-employed instructors, on-the-job training in industrial settings, formal labor/management apprenticeship programs, and other types of schools not open to the general public.

CRITERIA FOR INCLUSION

To be listed in this directory, public and private schools and institutions that offer postsecondary occupational programs below the baccalaureate level in the United States and its outlying areas must fall within one or more of the following categories:

1. Public schools approved by a State department of education
2. Public and private schools approved by a regional accrediting association recognized by the U.S. Office of Education (OE)
3. Private schools offering programs approved by an accrediting association or agency recognized by OE
4. Public and private schools meeting the Veterans Administration's requirements or the eligibility requirements of OE's Federal Insured Student Loan or Basic Educational Opportunity Grant programs

Accreditation of all schools reported in this directory was verified by OE's Division of Eligibility and Agency Evaluation. Approval for veterans' education programs was based on a list dated 1978 provided by the Veterans Administration.

ACCREDITATION

The U.S. Office of Education does not accredit, recommend, or approve any schools or educational institution. It does, however, maintain a list of recognized accrediting agencies and associations. In general, there are two types of accreditation: (a) institutional and (b) specialized or program.

---

[1] See appendix section on Program Abbreviations for the list of program offerings which qualify schools for inclusion.

Institutional accreditation is awarded by the secondary and postsecondary commissions of six regional accrediting associations. This type of accreditation applies to the total institution and signifies that the institution as a whole is achieving its objectives satisfactorily. The regional accrediting agencies (with the designating symbols used in this directory) and the States within their jurisdiction are listed below:

A New England Association of Schools and Colleges: *Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont*

B Middle States Association of Colleges and Secondary Schools: *Delaware, District of Columbia, Maryland, New Jersey, New York, Pennsylvania, Canal Zone, Puerto Rico, Virgin Islands*

C North Central Association of Colleges and Secondary Schools: *Arizona, Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, New Mexico, North Dakota, Ohio, Oklahoma, South Dakota, West Virginia, Wisconsin, Wyoming*

D Northwest Association of Secondary and Higher Schools: *Alaska, Idaho, Montana, Nevada, Oregon, Utah, Washington*

E Southern Association of Colleges and Schools: *Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Texas, Virginia*

F Western Association of Schools and Colleges: *California, Hawaii, American Samoa, Guam, Trust Territory of the Pacific Islands*

Specialized or program accreditation is conferred by a number of organizations which are national in scope and represent a specialized area of study (e.g., cosmetology, practical nursing, trade and technical education, etc.). Program accreditation applies only to the specific program offered by the school and not the school itself. The associations and agencies which accredit programs and the abbreviations used in this directory are:

AICS	Association of Independent Colleges and Schools: business programs
ADN	National League for Nursing: associate degree programs in nursing
ANES	American Association of Nurse Anesthetists: anethesiology programs
ANTECH	American Veterinary Medical Association: animal technician programs
CAC	Cosmetology Accrediting Commission: cosmetology programs
CLA	American Medical Association, Council on Medical Education (AMA/CME): certified laboratory assistant programs
CT	AMA/CME: cytotechnologist programs
DA) DH) DT)	American Dental Association, Council on Dental Education: dental assistant, dental hygienist, and dental technician programs
ECPD	Engineers' Council for Professional Development: engineering technology programs
FSE	American Board of Funeral Service Education: funeral service programs
HT	AMA/CME: histologic technician programs
ID	Foundation for Interior Design Education Research: interior design aide programs
IT	AMA/CME: inhalation (respiratory) therapy technologist programs
MA	AMA/CME: medical assistant programs
MLT	Accrediting Bureau for Medical Laboratory Schools: medical laboratory technician programs, medical assistant programs
MLTAMA	AMA/CME: medical laboratory technician programs
MRT	AMA/CME: medical records technician programs
MT	AMA/CME: medical technician programs (certificate only)
NAPNES	National Association for Practical Nurse Education and Service: practical nurse programs

NATTS	National Association of Trade and Technical Schools: trade and technology programs
NHSC	National Home Study Council: all programs
NMT	AMA/CME: nuclear medical technician programs
NUR) PN)	National League for Nursing: diploma nursing and practical nursing programs
PA	AMA/CME: programs for physicians assistant and assistant to the primary care physician
RTT	AMA/CME: radiation therapy technologist programs
RT	AMA/CME: radiologic technologist programs

FORMAT AND EXPLANATION OF DATA

Public and private postsecondary schools are listed alphabetically under the States and the cities in which they are located. Each school listing is arranged in the format shown below.

School number. A number is assigned to each school in sequence as it appears within the State. The school listed first in each State is assigned the number 1. These numbers are unique to this publication and are used only to facilitate identification of the school from the School Index or the Program Index. They do not appear on the computer tape.

Name and address: Names and addresses include the county and ZIP code. Abbreviations are in accordance with those listed in appendix A.

Telephone. The area code and the telephone number are provided.

ID number. A serial number is assigned to noncollegiate schools. All institutions of higher education are assigned a Federal Interagency Committee on Education (FICE) code.

Control or affiliation. The following terms are used to identify the type of control of the school listed:

Abbreviation	*Definition*
Public	Public–Controlled by Federal, State, or local government
Prop	Proprietary–Operated as a private, profitmaking school
Ind	Independent–Operated as an independent nonprofitmaking school

Type of school. Definitions for the various types of schools at the postsecondary level of instruction were originally adapted from *Standard Terminology for Curriculum and Instruction in Local and State School Systems* (OE 23052). Schools were classified according to the types of occupational programs they offered. However, because of ambiguity in some of the definitions, changes were made to these definitions to reflect actual conditions in the public and private school sector. Two new types were added to eliminate miscellaneous groupings in the vocational/technical school category. The new types are arts/design schools and allied health schools. These changes were developed and approved by the Federal Interagency Committee on Education (FICE) Subcommittee on Classification of Noncollegiate Postsecondary Schools. In the course of making these changes, correspondence (home study) schools were dropped as a separate classification on the premise that learning a skill through home study

was a method of delivery rather than a type of school. A list of schools that offer programs by correspondence appears in appendix C.

The following list gives the abbreviation and program offerings for each type of school.

Voc	*Vocational/technical*–A school offering a wide variety of occupational programs or clusters of programs. Schools in this category may be considered multiprogram schools and are usually public schools.
Tech	*Technical institute*–An institution (usually 2-year) offering instruction in one or more of the technologies at a level above the skilled trades and below the professional level.
Bus	*Business/commercial school*–A school offering programs in business occupations such as accounting, data processing, word processing and secretarial. Special-purpose schools that offer the following programs are included: Court reporting, finance, insurance, real estate, and sales.
Cos/Bar	*Cosmetology/barber school*–A school offering programs in hairstyling for men and women and in the care and beautification of hair, complexion, and hands.
Flight	*Flight school*–A school offering programs for training as aircraft mechanic, commercial pilot, or in other technical fields related to aviation.
Trade	*Trade school*–A school offering training in one trade or craft or a single custer of trades or crafts, such as auto mechanics, baking, bartending, carpentry, carpetlaying, commercial diving, cooking, dog grooming, drafting, fire protection, horseshoeing, locksmithing, meat processing, police training, truck driving, and welding.
Arts	*Arts/design school*–A school offering training in the performing arts, such as acting, dance, music, and singing; creative design, such as commercial art, fashion design, floristry, interior design, photography; and radio/television broadcasting.
Hosp	*Hospital school*–A hospital offering programs in paraprofessional health or medical fields, such as nursing or radiologic technology.
Hlth	*Allied health school*–A school (other than hospital school) offering programs in paraprofessional health or medical fields, such as dental assisting, medical assisting, practical nursing, and mortuary science.
Jr Col	*Junior/community college*–An institution offering the first 2 or 3 years of college instruction in occupational programs. It frequently grants a certificate or an associate degree but not a bachelor's degree.
Col	*College*–An institution offering instruction at the college level leading to a bachelor's or higher degree. It frequently offers occupational programs leading to an associate degree, diploma, or certificate below the baccalaureate.
Other	Schools or institutions not classified in any of the above groups include schools of modeling, brewing, maritime occupations, and horsemanship.

Enrollment. For most schools, the enrollment figure shown is the total (including full-time and part-time) ever enrolled in occupational programs over a period of 1 year. Generally, enrollment data refer to the 1977-78 school year or to the 1977 calendar year, depending on the recordkeeping practices of the school. For colleges and junior/community colleges, however, the figure shown represents only those students who, in 1977, were awarded a certificate, associate degree, or diploma in one of the occupational programs. Where schools did not provide enrollment data, the space is left blank.

Accreditation. Abbreviations are used to indicate the school or program accreditation awarded, as of July 1978, by OE-approved accrediting bodies as listed in the section "accreditation."

Eligibility. Abbreviations are used to indicate whether schools have established eligibility with the Veterans Administration (VA) or with OE's Federally Issued Student Loan (FISL) or Basic Education Opportunity Grant (BEOG) programs.

Programs. Only those instructional programs which are occupationally oriented are listed. Program titles are taken from *Standard Terminology for Curriculum and Instruction in Local and State School Systems* (OE 23052) and *A Taxonomy of Instructional Programs in Higher Education* (OE 50064). See the section in appendix A "program abbreviations" for an alphabetical list of programs included in the directory and for the abbreviations used.

SPECIAL NOTE ON INDEXES

Two indexes are provided in this publication: a School Index and a Program Index.

The *School Index* is an alphabetical listing, by name of school, of all schools included in the directory. Each name is followed by a State abbreviation and school number as a reference to its location in the directory.

The *Program Index* is a feature for use primarily for career guidance assistance. It lists program offerings, followed by references to the schools that offer these programs. Used in conjunction with the U.S. Department of Labor's *Occupational Outlook Handbook, 1978-79,* the directory should prove valuable for teachers and guidance counselors.

SUPPLEMENT TO THE DIRECTORY

The Program Index included in this directory lists schools offering occupational programs by a coded entry. This requires cross-referencing to identify the name and location of the school. While this procedure may require little effort for the casual user, counselors and researchers who require long lists of schools by program may find this method cumbersome. In response to this concern, the 1978 directory is supplemented by a companion publication, *Programs and Schools, 1978* (NCES 78-352A) which provides one-line listings by name, address, and ID number for all schools which offer each of the occupational programs. The list of programs in the supplement is identical to that which appears in the Program Index in the Directory. The supplement may be purchased from the Government Printing Office.

METHODOLOGY

The 1976 universe listing of 9,783 accredited and unaccredited schools was used as the basis for developing this edition of the directory. State directors of vocational education were asked to notify NCES of any name and address changes and school closings or openings that occurred since the last directory was published. Lists from other sources were also examined for new schools. As a result of these efforts, nearly 1,200 new names were added, making a total of nearly 11,000 schools to be surveyed.

Updated information on enrollments and program offerings of these schools was compiled through the use of several sources:

1. About 1,650 junior/community colleges and 4-year colleges and universities which offer occupational programs below the baccalaureate level were identified from the Higher Education General Information Survey (HEGIS) for 1977. Data on programs and number of degrees awarded were taken from the Earned Degrees Conferred schedule.

2. A random sample of 2,398 schools selected from the 1976 universe listing (excluding HEGIS schools) was made to collect detailed information on such items as length of programs, tuition and other charges, enrollments (full-time and part-time, age, sex, and ethnic group), completions, and type and sex of staff. The results of this survey will be published in a separate report. Information necessary for the universe and directory update was extracted from the questionnaire forms used in this survey.

3. The remaining 6,952 schools were sent questionnaire forms designed solely to update the universe and directory. A copy of the form appears in appendix B. Attempts were made to contact nonrespondents, first by mail and later by telephone. Schools were considered closed if no telephone listing was found.

Of the nearly 11,000 schools surveyed, about 1,350 were deleted, leaving about 9,650 schools in the 1978 universe listing. From this listing, only accredited schools are included in this directory. In general, deleted schools were those which had closed since 1976, were duplicate listings, or were considered out of scope (did not offer occupational programs at the postsecondary level).

COMPARABILITY WITH PREVIOUS DIRECTORIES

Every effort has been made to keep the scope and definitions in the directory project compatible among the years. However, certain differences should be noted. For the 1971 universe listing, names and addresses were derived from lists sent in by the States.

These lists contained some schools which were approved to operate within the State but, as was later discovered, were closed, did not necessarily offer occupational programs, or had merged with other schools. As a result, the total number of schools in the 1971 universe listing exceeded the actual number.

In subsequent surveys, many of these unconfirmed schools were removed and definitions were sharpened. The chart on the following page outlines the major differences among the directories.

TABULAR PRESENTATION

The six tables following the chart show distributions of postsecondary schools by various categories and enrollments by control of school and sex. With the exception of tables 3b and 4, the source for these tables is the universe listing of schools, which includes both accredited and nonaccredited schools. Because of the nature of the subject matter, table 4 includes only those schools which are accredited or approved and therefore listed in this directory.

For purposes of comparison, tables 3a and 3b together provide the type of school by type of control for both the universe and the accredited schools only. Table 5 shows the number of schools, by type and by control, for the four periods during which directory data were collected. The two columns for 1976 compare the number of schools using the "old" definition and school types with the number using the "new" definition initiated in 1978.[2]

---

[2] In 1978, the category "home study" was deleted and two new school types, "Arts/design" and "Allied health," were added. Appendix C lists schools offering occupational programs through correspondence.

Item	*1971 Directory*	*1974 and 1976 Directories*	*1978 Directory*
Enrollment	Provided for public schools only. For HEGIS schools, enrollment figures refer to the total number of students in the institution.	Provided for both public and private schools. For HEGIS schools, enrollment figures refer to total students who receive associate degrees and other formal awards below the baccalaureate.	No change.
Program offerings	Not listed if the schools did not check their program offerings from a list of 160 programs.	Listed for all schools. Schools were asked to provide a list of program offerings which were then classified into appropriate categories.	No change.
Number of schools	Listed for all schools provided by States. However, many were closed or did not offer occupational programs at the post-secondary level.	Deleted closed and out-of-scope schools.	No change.
Control	Listed separately independent nonprofit schools and schools with religious affiliation.	No change.	Combined independent nonprofit schools and schools with religious affiliation into one category: independent nonprofit.
Type of school:			
Hospital	Listed all known hospital schools.	Deleted hospital schools which were administratively affiliated with a college to avoid double counting of students.	No change.
Barber	Classified as trade school.	Combined with cosmetology schools since many started to combine their activities under the generic term "hair-styling."	No change.
Home study	Included some sales offices of correspondence schools.	Deleted sales offices scattered throughout the United States and retained main offices only to avoid double counting of students.	Deleted category of "home study" on the principle that home study is a method of delivery rather than a type of school. These schools are now classified by appropriate type.
Vocational/ technical	In addition to its current definition (see page x), included schools which offered programs which could not be classified elsewhere.	No change.	New school types Arts/design and Allied health were added to list to account for large miscellaneous group.
Other	Included correctional institutions in the universe listing (but not included in the directory).	Deleted correctional institutions from universe listing because these schools are not open to the general public.	No change.

PROGRAM ABBREVIATIONS

To conserve space in the directory listing, abbreviations or shortened names are used to indicate the various programs offered by a school.

Program titles are taken from *Standard Terminology for Curriculum and Instruction in Local and State School Systems, Handbook VI* (OE 23052); and *Vocational Education and Occupations* (OE 8061). Program titles and codes from these two publications are referred to as OE codes. Because no OE code exists for certain popular and/or new program offerings, a dummy code is assigned and asterisked in the list below.

Also incorporated in the program titles are the occupational programs that were reported on the survey forms for *Earned Degrees Conferred, 1977-78*, Higher Education General Information Survey (HEGIS). The source of these programs is *A Taxonomy of Instructional Programs in Higher Education* (OE 50064). Such program titles and codes are referred to as HEGIS codes.

The following list provides the abbreviations used in the directory listing, the full name as it appears in the Program Index, and the associated OE and/or HEGIS codes:

Abbreviation	*Name in Program Index*	*OE code*	*HEGIS code*
Accounting	Accounting & computing occupations	14.01	5002
Advertising	Advertising services	04.01	...
Aero Tech	Aeronautical technologies	16.0101	5302

Appendix B—QUESTIONNAIRE FORM

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
EDUCATION DIVISION
NATIONAL CENTER FOR EDUCATION STATISTICS
WASHINGTON, D.C. 20202

SURVEY OF PROGRAMS AND ENROLLMENTS
POSTSECONDARY SCHOOLS
CAREER SCHOOLS

FORM APPROVED
O.M.B. NO. 51S77030

DUE DATE

Verify the name and address of your school listed to the left. Mark any corrections right on this form.

Data obtained through this survey will be used as follows:

1. School name and address, type of agency which operates this school, programs offered, and total enrollment will be used to develop a directory of postsecondary schools.
2. All other information will be used in national summary tables only. No data, other than for directory listing, will be identified with the name of your school.

1. DOES YOUR SCHOOL OFFER ANY PROGRAMS WHICH LEAD TO A SPECIFIC OCCUPATIONAL OBJECTIVE? *(A PROGRAM IS A PLANNED **SEQUENCE OF COURSES** leading to a specific occupational skill such as secretarial science, ornamental horticulture, or body and fender repair. Programs which do **NOT** lead to careers should be excluded, such as food preparation for housewives, private pilot training, or charm courses)*

(1) ☐ YES **Continue with questionnaire**

(2) ☐ NO **Stop here and return questionnaire in the enclosed envelope**

2. DOES YOUR SCHOOL OFFER ANY CORRESPONDENCE COURSES?

(1) ☐ YES IF "YES," **exclude** CORRESPONDENCE COURSES IN ANSWERING THE REMAINDER OF THE QUESTIONNAIRE

(2) ☐ IF YOUR SCHOOL OFFERS **ONLY** CORRESPONDENCE COURSES, CHECK HERE, AND RETURN QUESTIONNAIRE IN THE ENCLOSED ENVELOPE

(3) ☐ NO **Continue with questionnaire**

3. WHICH OF THE FOLLOWING BEST DESCRIBES THE TYPE OF AGENCY WHICH OPERATES THIS SCHOOL? *(Check one)*

(1) ☐ PUBLIC *(2)* ☐ PRIVATE PROPRIETARY *(3)* ☐ INDEPENDENT NONPROFIT

4. WRITE IN THE NUMBER OF THE U.S. CONGRESSIONAL DISTRICT IN WHICH THIS SCHOOL IS LOCATED

CONGRESSIONAL DISTRICT NO.

5. IS THIS SCHOOL RELATED TO OR AFFILIATED WITH ANOTHER ORGANIZATION? *(Check one)*

(1) ☐ WE ARE NOT AFFILIATED WITH ANY OTHER ORGANIZATION.

(2) ☐ THIS SCHOOL IS A BRANCH OF ANOTHER ORGANIZATION *(Provide name and address of parent institution)* →

(3) ☐ THIS SCHOOL IS ONE OF A CHAIN OF SCHOOLS. *(Provide name and address of parent institution)* →

(4) ☐ THIS SCHOOL IS THE PARENT *(or home office)* OF A CHAIN OF SCHOOLS

(5) ☐ IF THIS IS A HOSPITAL SCHOOL, DO STUDENTS REGISTER THROUGH A COLLEGE OR UNIVERSITY? IF SO, PROVIDE NAME AND ADDRESSOF INSTITUTION →

(6) ☐ OTHER ____________________

INDEXES

Program Index

School and
Institution Index

PROGRAM INDEX

This section of the directory should be of great value to guidance counselors and students seeking names and addresses of schools offering occupational programs.

The Program Index is arranged in alphabetical sequence by title of occupational program, followed by the abbreviation used in the main directory listing to designate types of program offerings. Users should also check references to related programs. For purposes of clarity, short explanations appear in parentheses beneath some program titles regarding the kinds of occupations or the types of products associated with the program.

Following the program titles and other information are coded references to schools which offer the programs. These references use a two-letter State abbreviation followed by a number. For example, MD 185 designates the 185th school in the State of Maryland, which can be quickly identified by referring to the directory listing under Maryland and locating the school numbered 185. State abbreviations are provided in appendix A; school numbers appear on the line just above their names in the directory listing.

For a complete listing of the names and addresses of noncollegiate schools offering each program, refer to *Programs and Schools, 1978,* a supplement to this directory. Colleges and universities and junior/community colleges are omitted from this listing since they refer to degrees awarded rather than to programs offered.

PROGRAM INDEX
